The Regulations apply to every person engaged in the business of selling consumer goods at retail on credit, in the business of making loans, or otherwise engaged in financing the purchase of consumer goods.

The following requirements will be in effect when retail sales are made on the instalment plan on and after November 1, 1950:

	Minimum down payment	Maximum time to pay
Motor vehicles (e.g. passenger automobiles and motorcycles).....	33 1/3%	18 months
All other consumer goods.....	20%	18 months

In no case shall the down payment be less than \$5.00.

INSTALLMENT PAYMENTS are to be in regular, approximately equal, amounts of not less than \$5.00 monthly or \$1.25 weekly. Instalment payments may be varied to meet the circumstances of persons such as farmers and commercial fishermen whose incomes are subject to seasonal fluctuations. Similar terms apply to loans granted by banks or loan companies for the purpose of purchasing consumer goods at retail.

SPECIAL PROVISIONS ARE INCLUDED WITH REGARD TO REVOLVING CREDIT ACCOUNTS, permanent budget accounts, current budget accounts, and similar plans involving payment for goods by regular instalments.

ORDINARY CHARGE ACCOUNTS ARE NOT DIRECTLY AFFECTED by the present Regulations, but steps will be taken, if necessary, to see that charge accounts are not used to evade the regulations relating to instalment sales.

THE REGULATIONS REQUIRE SELLERS, LENDERS AND FINANCE COMPANIES to maintain records of transactions, to make them available for inspection, and to furnish information on request to authorized representatives of the Government of Canada.

CONSUMER GOODS include all goods with certain exceptions. A full list of the exceptions will be found in the Regulations.

For example, the Regulations **DO NOT APPLY** to sales of real estate, stocks, bonds, securities, goods for professional or business use, buses, trucks, building materials, implements and equipment used exclusively in farming and fishing.

Penalties are provided for violation of the Regulations.

A Wild Goose Chase

We understand that one of our local mimros accompanied by two ex-Immites from Edmonton stayed up all night and journeyed many miles last week-end in order to arrive at a choice place where wild geese feed in flocks, numbering hundreds.

They arrived at the desired goal—prospective view of the very best. Plans were laid and dug-out dug. Then our hunters settled down to wait as children by a fire place waiting for Santa Claus. But what sayeth Coleridge, "Oh sleep, it is a gentle thing beloved from pole to pole," or Shakespeare, "Sleep that knits up the ravell'd sleeve of care." Well anyway, sleep in this case was the villain of the piece for the honkers came and ate their fill and departed unscathed before our weary gunmen awoke. What sayeth yet another poet about "The best laid plans of mice and men?"

NATIONAL FILM CIRCUIT

At the meeting of Community Representatives and interested persons on October 14, it was decided to organize an Area Film Council to handle the distribution of films in the MD of Wainwright No. 61. Due to the small, but encouraging turnout, it was decided to set up a Pro-tem council until after the first circuit had been run, and the proper ground work done, then a permanent board organized. By having a film council it will relieve the Municipal council of this responsibility, and the service will be paid for by those who benefit. The first circuit schedule is elsewhere in this issue which commences November 6. I will take the opportunity at each of these shows to explain the proposed plan. I will also ask you to appoint a representative to attend a meeting on November 30, to organize the permanent council and set out the plan for the winter operations. I hope to see a good turnout at the shows and a lively discussion take place.

BANGS RESTRICTED AREA

The petitions have been completed and forwarded to Edmonton for final action. The sign-up was over 90 per cent in favour of an area. The area will commence operation under plan two of regulations, which is Compulsory Vaccination of all heifer calves on the premises at the time of visit by the Vet. We hope to commence vaccination within the next two weeks in those districts where travel is generally difficult during the winter. A local organizer will be appointed in your community to help speed things up. I would even appreciate volunteers to do this organizing. We have a large area to cover in a very short season, so full co-operation is essential. Satisfactory chutes and corals will be required to prevent any delay.
